Joe the SOC Analyst is investigating a suspicious email that was reported to the security team. Whilst investigating the email in a virtual machine, there is a hyperlink that takes the user to a website that looks like the login page for Microsoft's Outlook, but the URL is "h[ttp://structuredbuildingsupplies.net/index/21431/ddd/MSlogin. What type of phishing attack is this?

- ☐ False Positive
- ☐ Spear-Phishing
- ☐ Malicious Attachment
- ☐ Credential Harvester

You have two attempts to select the correct answer.

Submit

Answer: Credential Harvester
