Challenge   303 Solves   ✕

Scoping the Job 5

OSINT

You work as a Security Administrator for Fake Bank LLC. You would like to find email addresses that are associated with fakebank.com through OSINT tools. Which of the following command line tools would give you the most accurate information?

○ Nmap

○ Metasploit

○ Theharvester

○ Aircrack-ng

You only have two attempts to select the right answer.

Submit

Answer: Theharvester
